Education

JNTUK, Computer Science

Currently pursuing **2nd year** undergraduate in computer science at **Seshadri Rao Gudlavalleru Engineering College**, An autonomous institute with permanent affiliation to University JNTU, kakinada.

Current **CGPA is 8.8** and my anticipated **graduation date is May 2026.**

Experience

One, personal project   August 2023 - Present

Developed an android app named "one" using **Flutter**. Making it easy to find communities and clubs in my college using this app.

Used **Firebase** for database, cloud messaging. Integrated Azure Active Directory data using **Graph QL** apis for auth using Student ID.

Planned to add library resources, student blog and event registration forms in the app with auto fill provided by user profile data.

Won Hackathon   October 2023

Developed "college news and announcements" app In a hackathon organized in college and won a consolation prize for making the communication easy by eliminating use of whatsapp.

Used **Firebase** for database, **cloud messaging** and **push notifications**.

Awards

Google Cybersecurity Professional Certificate
